

(Windows, Mac OS)

Step 1: Click on FortiClient desktop icon to launch software.

Step 2: Navigate to "Remote Access" tab on the left hand.

Step 3: Click on "Config VPN" to add a VPN connection.

Step 4: Enter the settings in each field as shown below and click apply.

The screenshot shows the 'New VPN Connection' dialog box with the 'IPsec VPN' tab active. The fields are as follows:

- Connection Name:** A text input field labeled A.
- Description:** A text input field labeled B.
- Remote Gateway:** A text input field labeled C.
- Authentication Method:** A dropdown menu set to 'Pre-shared key' with a text input field for the key labeled D.
- Authentication (XAuth):** Two radio buttons: 'Prompt on login' (selected) and 'Save login'.
- Advanced Settings:** A collapsed section indicated by a right-pointing triangle.
- Buttons:** 'Apply' and 'Close' buttons at the bottom.

- Ⓐ Enter a VPN tunnel Name
- Ⓑ Enter a description (Optional)
- Ⓒ Remote Gateway : **82.150.35.17**
- Ⓓ Authentication Method : **Pre-shared key**
